Family Owned for 150 Years on Historic Boston Harbor

Just steps from Quincy Market, New England Aquarium, and countless world class restaurants, charm and spectacular views punctuate this quiet and safe marina. As the city's oldest continually operating yachting facility, Boston Waterboat Marina prides itself on offering small town hospitality with big city convenience.

Whether you're cruising into town for lunch or dinner, or spending your vacation exploring Boston, friendly service and exceptional accommodations await you.

Closest Marina to Downtown Boston

COMMODORE'S MESSAGE

Members,

I am honored to serve as MBYCA Commodore for 2020.

An organization, in order to flourish, needs a supporting team for those it serves and I am blessed with the best, P/C Paul Dubiel, Vice Commodore Jack Swanson, Rear Commodore Neal Caten, Secretary, P.C. Cheryl Chisholm, Treasurer, P.C. Ted Chisholm and Directors, Past Commodores Peter Gilson, Bill Scanlon, Peter Caten and Russ Hoy. Thank you for your dedication and hard work.

Special thanks to the Bridge, Board of Directors and Delegates from member clubs for their input for our 2020 yearbook, and their steadfast attendance at our monthly member meetings, and for those that place advertisements every year in our yearbook. Thank you for your dedication and support.

Special gratitude to Madame Secretary, Cheryl Chisholm, for all the hours she dedicates putting our yearbook together every year. She includes detailed information concerning all that is required for us to use as a reference while on land or sea. Cheryl, thank you for your tremendous support on so many levels for MBYCA.

MBYCA continues to monitor and report legislation issues affecting our member clubs and boating community, and continues to support many organizations, DCR, Mass. Environmental Police, USCG National Boating Federation and Port Authority groups.

In closing, we look forward to working together, collectively as an organization, to promote and uphold safe boating, favorable legislation and good fellowship always. I would like to encourage delegates to consider running for an MBYCA office, to further support the MBYCA organization in the future.

Wishing you a safe boating season and happy boating.

Best Regards,

Carolyn M. Bargoot
Commodore MBYCA 2020

Member, Winter Hill Yacht Club

President, Commodore's Club of America 2020

Member, Serenity Yacht Club, Pompano Beach, FL

INVITATION

Thunderbird Class 62nd Anniversary 2020 Massachusetts Bay Thunderbird Fleet #5

*If you love the tranquility of the sunset beyond the horizon,
the orange-purple sky reflecting in the deep blue colors of the sea;
if you love the salty spray and wind in your face and the
feeling of youth no matter your age; if you love the rushing
water's song under your keel, the calling sounds of seagulls and
the moonlit bay on a balmy summer night – you are one of us.
Welcome to the sea, skipper!*

*If you love the excitement at the docks, the rounding of a buoy,
the beating to the wind and the run with the spinnaker;
if you love the races, fierce competition, the regattas and the limelight
of victory, the trophies you cherish, the fellow you beat;
if you love the speed of your boat, the gunwale awash, the pressure
on your tiller and the sky above – you are one of us.
Welcome to the sea, skipper!*

*We invite you to join us to admire the sunset on our cruises,
to take home the trophies on our races. The Massachusetts Bay Thunderbird
Association, Fleet 5, invites, welcomes all, who love the sea to join us.*

You too, skipper.

Captain Peter & Carol Gilson **“Amr’a”**

**Director ~ MBYCA ~ 2020
Commodore ~ MBYCA ~ 2011 & 2018

President of Mass Bay Thunderbird Fleet #5
Life Member ~ South Boston Yacht Club
Life Member ~ Commodores Club of America
Life Member ~ International Thunderbird Association**

**SERVING THE MARITIME COMMUNITY THROUGH
FRIENDSHIP, FAITH & HOSPITALITY SINCE 1827**

**MAY YOU ALL BE BLESSED WITH A SAFE
AND FUN BOATING SEASON!!**

Seafarer's Friend visits crews daily, often providing the only faces of humanity seafarers will meet for several months; other than security or company personnel. Seafarers deeply value the relationships of care, compassion, and practical assistance offered by Seafarer's Friend.

Most vital in our ship visiting is the support and encouragement, which we provide to seafarers in times of stress, loneliness, or conflict/tension between multi-cultural crew members. These seafarers are on ships for a minimum of 9 months without seeing family and friends. They often miss crucial milestones in the life of their families so that the seafarers can provide for their families. The ships are both their workplace and a home. Yet one is never really at home aboard a ship. Shore leave is denied most often in the United States due to port security practices. Often the ships feel more like a prison because they are unable to disembark and mingle with society.

COME SHIP VISIT: If you have some time to spare, help us let the seafarers know that we appreciate what they bring to our ports.

These seafarers provide us with the clothes on our backs, the new cars at our dealerships, the salt on our roads, as well as energy for our cars and homes.

We accept donations from our community to sustain us in the work we do. If you are unable to donate your time, ***perhaps you are willing to contribute financially*** – because without your help, we could not serve these seafarers.

If you would like more information about Seafarer's Friend, or are interested in volunteering, please:

Call us at (617)-889-3222

Contact us with your email address to get on our email blast list.

CRESCENT YACHT CLUB

30 Ferry Street ☸ Bradford, MA 01835

Crescent Yacht Club was formed in 1936 as a sailing and motor boat club and was officially chartered on June 17, 1940. Although sailing never caught on at Crescent, motor boating flourished and continues today.

The growth and success of the CYC since its inception can be attributed only to the dedicated efforts of its past and present officers and committees, who started the Club and keep it on its continued path of success and growth.

It's the members that built the club, the docks and the mooring tender that, with great pride, we maintain and improve as needed.

We can't thank enough the members and friends that serve on our many committees, who provide the muscle and imagination for all the community service and fundraising, to support as many charitable organizations as we can.

Please come and help us celebrate our 80th Anniversary. You are all welcome to see what we have to offer and give us a chance to show off our pride in our beautiful Club, a beautiful and leisurely 18 NM from the mouth of the Merrimack River.

Check us out on Facebook at "Crescent Yacht Club Entertainment" for a full calendar of our activities (as soon as COVID-19 is over).

Voted 2013 Yacht Club of the Year by Mass Bay Sailing Association

Home of the Great Chase

Home of the Race Hull Regatta

The Hull Yacht Club, founded in 1880, is located directly on Allerton Harbor in Hull. One of the oldest yacht clubs in America, the club has a rich history of yacht racing and cruising. The current membership has a mix of sail, power and social-only members. Allerton Harbor is well protected from all points of the compass. The varied anchorages of the Boston Harbor islands are just minutes away, while many picturesque North and South Shore harbors are an easy weekend cruise.

Introducing the

FENDER BUCKET

HOLDS FENDERS IN PLACE WHEN LANDING YOUR
BOAT RIGHT WHERE YOU NEED IT EVERY TIME!

Take a Fender for other uses or Leave It.

"Take It or Leave It"

TIOLI = Take it or Leave it

- ▶ EASILY ATTACHES TO DOCKS USING 3 #10, 2" STAINLESS STEEL SCREWS
- ▶ MADE FROM DURABLE MARINE-GRADE RUBBER WITH A DUROMETER OF 90
- ▶ THE 10" DIAMETER X 16" TALL BUCKET WILL HOLD MANY SIZED FENDERS (SHOWN IS THE 8"x20" FENDER, THE MOST POPULAR)
- ▶ UV PROTECTED AND WILL NOT SCRATCH HULLS
- ▶ EVEN EMPTY, THE BUCKET WILL CUSHION LANDINGS
- ▶ KEEPS YOUR DOCK AREA NEAT

We hope you find these local tide charts useful. Please be aware that all tide charts are really just predictions and assume average weather conditions. Usually, onshore winds or low barometric pressure will produce higher tides than predicted and vice-versa.

While we take a lot of care to make these charts as accurate as possible, the MA Marine Trades Association does not warrant the accuracy, completeness, or fitness for a particular purpose of any tide, sun, and lunar information offered through this service. Under no circumstances shall the MA Marine Trades Association be liable to you or any other person for any indirect, special, incidental, or consequential damages arising from the use of this service.

We hope you find these local tide charts useful. Please be aware that all tide charts are really just predictions and assume average weather conditions. Usually, onshore winds or low barometric pressure will produce higher tides than predicted and vice-versa.

While we take a lot of care to make these charts as accurate as possible, the MA Marine Trades Association does not warrant the accuracy, completeness, or fitness for a particular purpose of any tide, sun, and lunar information offered through this service. Under no circumstances shall the MA Marine Trades Association be liable to you or any other person for any indirect, special, incidental, or consequential damages arising from the use of this service.

Paddle Sports

Paddle Sports continue to be the fastest growing segment of recreational boating, with more than 300,000 paddle crafts (canoes, kayaks and paddle boards) being sold annually. Paddle crafts are an extremely affordable entry point to recreational boating, which is attractive to new boaters, boaters downsizing from larger boats, and those interested in exploring their waterways.

Canoes and kayaks are considered vessels IAW 1 USC 3 regardless of length or location used and are required to comply with the Navigation Rules and all applicable carriage requirements for vessels of their type/size.

The Coast Guard has determined Stand Up Paddlers (SUPs) to be recreational vessels IAW 46 USC 2101 when used outside the narrow limits of swimming, surfing, or bathing areas. When operating outside these areas SUPs are required to comply with the Navigation Rules and all applicable carriage requirements for vessels of their type/size.

Sharing Waterways:

Learn and observe navigation rules. Stay out of paths of ships, water taxis, towboats, tugs and barges. A captain's blind spot can extend for hundreds of feet, and their speed can be deceptive.

- Paddlers should travel single file, and stay close to the shoreline.
- Avoid ship channels. Cross them quickly if you must perpendicular to the channel.
- A towboat's or tugboat's engines can cause water turbulence and currents hundreds of yards behind a vessel causing paddlers to be pulled toward the tow or even capsize from the wake.

DREDGING AWARENESS

COMMON TYPES OF DREDGES

BUCKET DREDGER

GRAB DREDGER

DIVER INFORMATION

RED/WHITE

ALPHA

IF YOU SEE THESE FLAGS:
**STAY CLEAR AND LEAVE NO WAKE!
DIVERS ARE BELOW THE SURFACE!**

REMEMBER

You can contact the Dredge on VHF CH 16 and 13. Keep CH 16 clear for emergencies by switching to 13 after making contact with the dredge.

REMEMBER

The Dredge **MAY** display "pass" and "CH 13" signs but this is not required.

NEVER

Pass between a dredge on the side and a Dredge. Keep a sharp eye out for moorings when transiting nearby.

NEVER

Pass between a tug and a vessel being towed. The tow line may be hidden beneath the water!

ALWAYS

Pass a dredge on the side displaying two diamonds during the day or two green lights arranged vertically at night.

ALWAYS

Stay well clear of Dredge Vessels and leave no wake.

FUELING AWARENESS

PRE-FUELING CHECKLIST

HAVE YOU:

- MOORED UP SECURELY?
- HAD ALL PASSENGERS LEAVE THE BOAT?
- STOPPED ALL ELECTRICAL DEVICES TO AVOID SPARKS?
- ENSURED NOZZLE IS IN CONTACT WITH TANK OPENING?
- FILLED ANY PORTABLE TANKS FROM THE DOCK?
- ENSURED NO ONE IS SMOKING OR STRIKING A MATCH?

POST-FUELING CHECKLIST

HAVE YOU:

- WIPED UP ANY SPILLS?
- OPENED ANY HATCHES, PORTS OR WINDOWS?
- RUN THE MECHANICAL BLOWER FOR AT LEAST 4 MINUTES?
- MADE SURE YOU DO NOT SMELL ANY VAPORS?
- STARTED THE ENGINE ONLY AFTER RUNNING BLOWER?
- PLACED FUEL SOAKED ITEMS IN A DOCK CONTAINER?

WARNING:

- ANY SHEEN, SLICK, OR EMULSIFICATION LEFT BY ANY OIL AFFECTING A NAVIGABLE WATER IS FINEABLE UNDER THE FWPCA.
- YOU MUST NOTIFY THE COAST GUARD IF YOU SPILL OIL.
- YOU MAY NOT USE SOAP TO DISPERSE A SHEEN. THIS IS PUNISHABLE WITH A FINE OF UP TO \$40,000.

LARGE VESSEL AWARENESS

DO

Stay a safe distance from tug boats and keep an eye out for barges in tow. Tug boats can create severe wake turbulence hundreds of yards behind the vessel.

DON'T

Never pass closely behind a tugboat. Under no circumstances should you ever pass between a tug and it's tow! The tow line may be submerged and hard to see.

DO

Stay as far to the side as depth allows when a ship approaches. Anchor at safe locations outside of the shipping channels and away from navigational aids.

DON'T

Never assume that a ship can see you! A vessel's blind spot can extend for hundreds of feet. Each year many boats are hit while operating in unsafe and illegal manners.

DO

Always pay attention to where shipping lanes are, and take care not to loiter in them. Watch for vessel side lights. If you can see both sidelights (red and green) you're directly in the path of danger!

DON'T

Never assume that a ship can steer to avoid you. Large ships are limited by their draft and may only have a few feet of wiggle room. Do not rely on trying to hear a vessel approaching at night.

CAN YOU SEE THE SAIL BOAT?

Even though it might look like a large vessel has plenty of room from a lower perspective, from the bridge you may be hard to see or even completely invisible! Do not take the chance and stay a safe distance from large ships.

SPEED CAN BE DECEIVING

A boater 1000 feet (3 football fields) ahead of a moving ship or tug has less than one minute to get out of the way! The sounding of 5 short blasts from a vessel is the "Danger Signal" indicating immediate need of corrective action to avoid collision.

All vessels near major WACH Channels 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100 must comply with a "warning" (5 short blasts) and "danger" (5 long blasts) signal. Please communicate your actions and intentions to other vessels.

Stay Safe on the Water.

1. NAVIGATION RULES (RULES OF THE ROAD)

Boaters call navigation rules – the basic laws governing the steering or sailing of a boat – “The Rules of the Road.” The Rules of the Road define the roles and responsibilities of vessel operators. If all operators obeyed these rules, most accidents could be avoided.

One of the reasons the Rules of the Road exist is to keep boats from colliding with each other and with other objects. Since collisions are the number one type of accident on the water, boaters should remember the following Rules of the Road.

*The Rules vary slightly depending on whether you are boating on inland or on international waters. As an example, when operating on inland waters, sound signals are signals of **intent**; when operating on international waters, they are signals of **action**.*

Post a lookout. Designate someone to watch for dangers that may come from any direction.

Maintain a safe speed. Except where speed is restricted by regulation or the waterway is marked by a “No Wake” or “Slow Speed” Aid, you must judge “safe speed” for yourself, taking into account visibility, vessel traffic, your boat’s ability to maneuver, and the weather conditions.

Avoid a collision. The Rules of the Road include the actions to take when encountering another vessel on the water. Some of the most common situations you may encounter are: overtaking, meeting head on, and crossing the bow of another vessel. In each case, the boat designated as the “give-way” vessel is required to yield to the other boat, while the boat designated as the “stand-on” vessel should maintain its course and speed.

Overtaking Situation (Navigation Rule 13)

Action(s): The give-way vessel (bottom) can pass on either side of the stand-on vessel (top).

Sound signals, inland: Passing portside requires two short (1-second) blasts on the horn signaling the overtaking boat's intention, and two short blasts for the stand-on vessel's agreement. Passing to starboard requires one short blast for intent and agreement.

Sound signals, international: Passing portside requires two prolonged (4-6 seconds) and two short blasts for the overtaking boat's intention, two short blasts for the stand-on vessel's agreement. Passing to starboard requires two prolonged and one short blast for intention. An agreement signal is only required when operating in a narrow channel or fairway; then the following blast pattern signals your agreement: one prolonged/one short/one prolonged/one short.

Head-On Situation (Navigation Rule 14)

Port-to-Port Passing (preferred)

Starboard-to-Starboard Passing

Action(s): When meeting another vessel head on, a port-to-port passing is preferred. Passing starboard-to-starboard is acceptable when necessary.

Sound signals: Passing port-to-port requires one short horn blast to signal intention and one short blast for agreement. Passing to starboard requires two short blasts from each vessel.

Crossing Situation (Navigation Rule 15)

Action(s): In a crossing situation, the give-way vessel must act to avoid a collision. This may include altering its course to pass astern of the stand-on vessel or slowing down. The stand-on vessel should maintain its course and speed.

Sound signals, inland: The give-way vessel signals the stand-on vessel with one short horn blast. The stand-on vessel agrees with one short horn blast.

Sound signals, international: The give-way vessel signals the stand-on vessel with one short horn blast. No agreement signal by the stand-on vessel is required.

When meeting another boat, make early and substantial changes to your course. This helps the other operator understand your intentions.

There is much more to the Navigation Rules than can be covered here. For more information, go to www.uscgboating.org or www.navcen.uscg.gov.

2. THE ESSENTIAL MARKERS: On the Water and On the Charts

The two main types of Aids to Navigation are buoys and beacons.

Buoys are Aids that float on top of the water, but are moored to the bottom of the body of water. Some have a light affixed to the top; some do not. A buoy with a cylindrical shape and a conical top is referred to as a “nun.” A buoy with a cylindrical shape and a flat top is called a “can.”

Beacons are Aids that are permanently fixed, most commonly to the bottom of a

body of water. A beacon that has a light attached is simply referred to as a “light”; a beacon without a light attached is called a “daybeacon.”

Both buoys and beacons can provide a variety of navigation information via shape, color, light, and/or audible signal.

Dayboards are informational signboards. The term **topmark** refers to a non-lighting element, such as a sphere, that may be affixed to the top of an Aid.

<p>RED LIGHTED BUOY</p>  <p>R "4" QR</p>	<p>GREEN CAN BUOY</p>  <p>G C "5A"</p>	<p>RED/GREEN NUN BUOY</p>  <p>RG N "CF"</p>
<p>RED LIGHT</p>  <p>F1 R 4s 30ft 6M "4"</p> <p>Red: always even numbers</p>	<p>GREEN LIGHT</p>  <p>F1 G 4s 15ft 5M "5"</p> <p>Green: always odd numbers</p>	<p>RED DAYBEACON</p>  <p>R "2A"</p>

Understanding the Symbols in This Booklet

Buoys, beacons, and all other Aids have a corresponding symbol used on nautical charts. In this booklet, you will see representations of Aids, each alongside its nautical chart symbol:

* Not on all Aids

U.S. Aids to Navigation System • www.uscgboating.org

3. U.S. AIDS TO NAVIGATION SYSTEM (IALA-B)

Lateral Aids to Navigation

Lateral Aids to Navigation are generally used for well-defined channels to indicate the route to be followed. These Aids show the sides of a navigable channel, mark junctions and forks or splits in the channel, indicate the safe side to pass a hazard to navigation, and mark the safe centerline on wide bodies of water.

They are used in conjunction with a conventional direction of buoyage (a local direction of buoyage when approaching a harbor, river estuary, or other waterway from seaward).

“Red, Right, Returning”

You may have heard the phrase, “Red, Right, Returning.” This expression refers to the fact that when returning (entering a channel from the open sea or proceeding upstream), a boater must keep the red Aids on the right (starboard) side of the boat. These Aids have even numbers, and the numbers should increase as you proceed inland.

When proceeding toward open water (seaward), navigate so that the green Aids are to starboard. In this instance, you will see odd numbers on the Aids and the numbers should decrease as you proceed toward open water (seaward).

If there is no route marked, navigate clockwise around landmasses.

Aids To Navigation

Waterway Marking Systems <> Channel Buoys

LATERAL SYSTEM (FEDERAL)

The waters of the United States are marked for safe navigation by the lateral system of buoyage. This system employs a simple arrangement of colors, shapes, numbers and light characteristics to show the side on which a buoy should be passed when proceeding in a given direction. The characteristics are determined by the position of the buoy with respect to the navigable channels as the channels are entered from seaward.

The expression "red right returning" has long been used by the seafarer as a reminder that the red buoys are passed on the starboard (right) side when proceeding from the open sea into port (upstream). Likewise, green buoys are passed on the port (left) side. Conversely, when proceeding toward the sea or leaving port, red buoys are passed on the port side and green buoys on the starboard side. Red buoys are always even-numbered. Green buoys are odd-numbered. Red and white vertically striped buoys mark the center of the channel.

MOORING TO BUOYS

Tying up to or hanging on to any navigation buoy (except a mooring buoy) or beacon is prohibited.

AIDS TO NAVIGATION

In recent years, modification to certain aids to navigation located on coastal and inland waters have been completed. These changes apply to aids used in both the lateral and state waterway marking systems. See charts that follow:

- Port-hand buoys are painted green, with green fixed or flashing lights.
- Starboard-hand buoys are painted red, with red fixed or flashing lights.
- Safe water buoys, also called midchannel or fairway buoys, and approach buoys are painted with red and white vertical stripes, with flashing lights.
- Preferred channel, or junction buoys, are painted with red and green horizontal bands, with flashing lights.
- Special marks (traffic separation, anchorage areas, dredging, fish net areas, etc.) are painted yellow. If lighted, the light may be fixed or flashing.

Uniform State Waterway Marking System

Boats Keep Out
Nature of danger may be placed outside the crossed diamond (e.g., waterfalls, swim areas or rapids)

Danger!
Nature of danger may be indicated inside the diamond shape (e.g., rocks, reefs, dams, construction or snags)

Caution!
Construction Area as indicated in circle (e.g., speed limit, no fishing, no anchoring, ski only, slow - no wake)

Information
Tells direction, distances, places, food, repairs, supplies and other non-regulatory messages.

Obstruction Marker
Cardinal Buoyage Marker System. Do not pass between shore and buoy.

Channel Marker
Lateral System. Keep Buoy on left facing upstream.

Mooring Buoy
White with reflectorised blue band. May have white light or reflection.

Channel Marker
Lateral System. Keep Buoy on right facing upstream.

Boaters Exercise Caution!
The Divers Down Flag means that divers are in the water. A rigid replica of the Alpha Flag means that the vessel is restricted in its ability to maneuver because of underwater operations.

Information and Regulatory Marks

These orange-and-white Aids are used to alert vessel operators to various warnings and regulations.

Symbol	Meaning	Examples
	Danger A diamond shape alerts boaters to hazards	
	Restricted Operations Marks with a circle indicate areas with regulated operations	
	Exclusion A diamond shape with a cross means boats are prohibited from the area	
	Information Marks with a square provide helpful information such as directions, distances, and locations	

Characteristics

- White with an orange horizontal band at both top and bottom.
- Black text within or around an orange square, circle, or diamond; or black text outside a diamond with an orange cross.
- May be buoys or beacons.
- If lit, the light will be white and may have any light rhythm except quick flashing, flashing (2), or Morse code "A."
- The chart symbol for this type of buoy is:

Special Aids

These Aids indicate special areas or features such as anchoring, traffic separation, fishnet area, cables or pipelines, military exercise areas, and jetties.

Unlighted

Lighted

Characteristics

- All-yellow.
- Come in a variety of shapes.
- May have one black letter.
- If lit:  or 

State Waters Obstruction Mark

The State Water Obstruction Mark indicates to a vessel operator that an obstruction to navigation extends from the nearest shore to the buoy. Do not pass between the buoy and the shore.

Characteristics

- Black-and-white vertically striped buoy.
- May show a white reflector or display a quick-flashing white light.

Mooring Buoys

While not a navigational Aid, mooring buoys are worth mentioning. They are the only type of buoys to which mooring is permitted. Most mooring buoys are privately owned or are rental buoys. Permission is usually needed to use them.

Characteristics

- White with blue horizontal band.
- Cylinder and sphere shapes.
- May show a white reflector or display white or yellow light.

4. BOATING AT NIGHT

Boating at night can make even familiar waters unrecognizable. Visual depth perception is lessened and lights from the shore can be difficult to distinguish from those on the water. To make nighttime boating safer, keep the following in mind.

Navigation Lights

Vessels are required to show navigation lights from sunset to sunrise and during periods of restricted visibility. Understanding these light displays will provide invaluable information to the boater, as these lights can help the boater determine the length of another vessel, its orientation in relation to your boat, and the general direction in which it is headed. All operators must ensure that their vessel's navigation lights are working and that the positioning and distance from which they can be seen meet federal regulations.

It is important to know which navigation lights you will see from another boat in certain situations. This can help you determine if you are in an overtaking, meeting, or crossing situation. The following chart illustrates the navigation lights you will see from various angles:

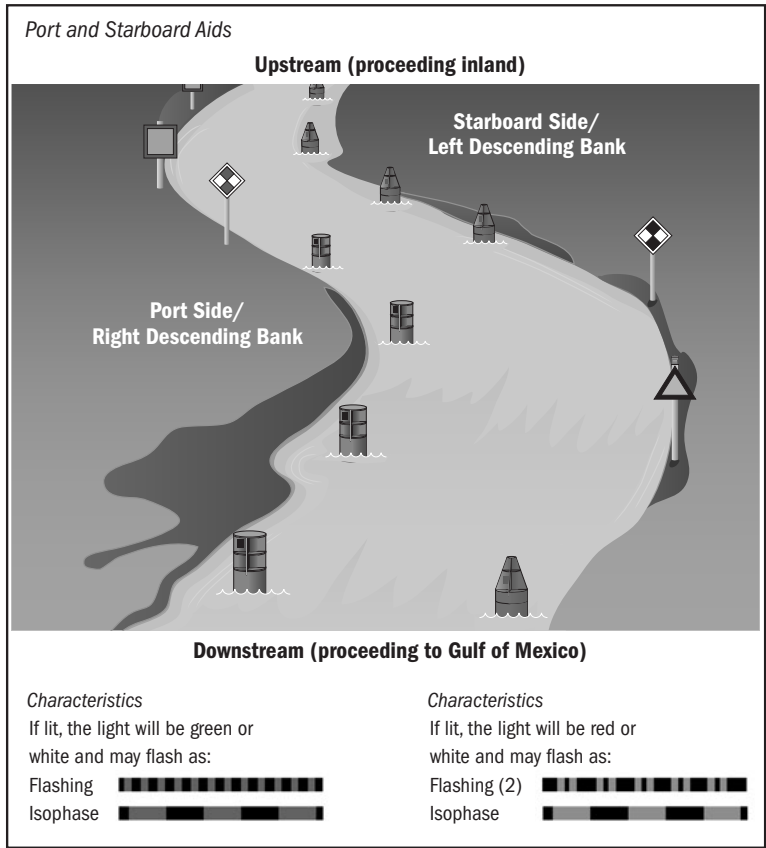

Whenever you see a red navigation light from another vessel, give way. It is the stand-on vessel. According to the Rules of the Road, it has the right of way (see page 2).

If you see both the red and green sidelights of another boat, it is coming straight toward you. You should take action to change course in order to avoid a collision.

5. AIDS TO NAVIGATION SYSTEMS

Western Rivers Marking System

When on the Mississippi River, tributaries above Baton Rouge, and several other rivers that flow toward the Gulf of Mexico, boaters must follow a system called the Western Rivers Marking System, a variation of the U.S. Aids to Navigation System.

In the Western Rivers Marking System:

- Buoys are not numbered.
- Beacons are not numbered, but normally have a mile marker that indicates the distance in statute miles from a fixed point, typically the river's mouth.

- Crossing daybeacons are used to assist river traffic by indicating where the channel has changed from one side of the river to the other; the aid that marks this channel change will be on the opposite side of the river. When encountered, a vessel operator should head for the Aid, using its color as a channel mark.
- Isolated danger marks and safe-water marks are not used.
- River banks are named based on their downstream direction: either “left bank” and “right bank” or “left descending bank” and “right descending bank.”
- Because of their somewhat temporary nature, Western River buoys do not have numbers or letters and are not always marked on river charts because they tend to drift due to fluctuating water level, current speed, and shifting shoals.

Intracoastal Waterway

The Intracoastal Waterway (ICW) runs just inland and parallel to the Atlantic and Gulf coasts from Manasquan, New Jersey to the Mexican border. The Aids to Navigation of the ICW closely resemble the green and red buoys and beacons of the lateral system previously discussed.

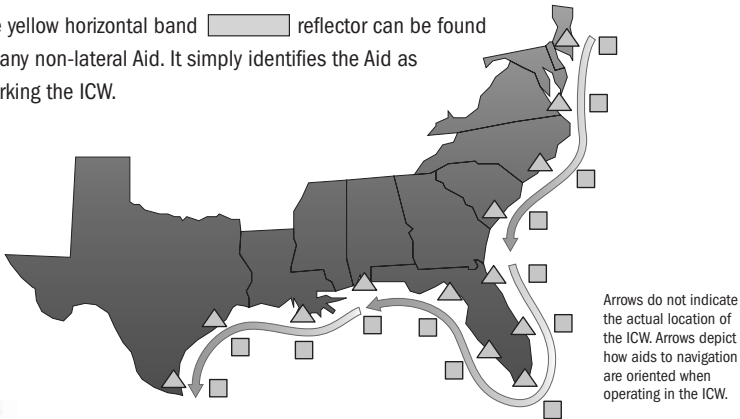

When operating in the ICW, the color of the Aids will typically correspond to the USATONS scheme (Red, Right, Returning). The yellow squares, triangles, and bands attached to the Aids are the primary ICW indicators. Boaters need to understand these markings to safely navigate the ICW. Some examples:

There are three types of symbols:

When following the ICW from New Jersey through Texas, keep yellow triangles  on your starboard and yellow squares  on your port, regardless of the color of the Aid on which they appear.

The yellow horizontal band  reflector can be found on any non-lateral Aid. It simply identifies the Aid as marking the ICW.

ICW beacons and buoys do not correspond to IALA-B's color system because ICW and non-ICW routes may travel next to each other in opposing directions – and share the same Aids. Thus, when following the ICW, navigate by the yellow symbols; otherwise, navigate by the color of the Aid itself.

Uniform State Waterway Marking System

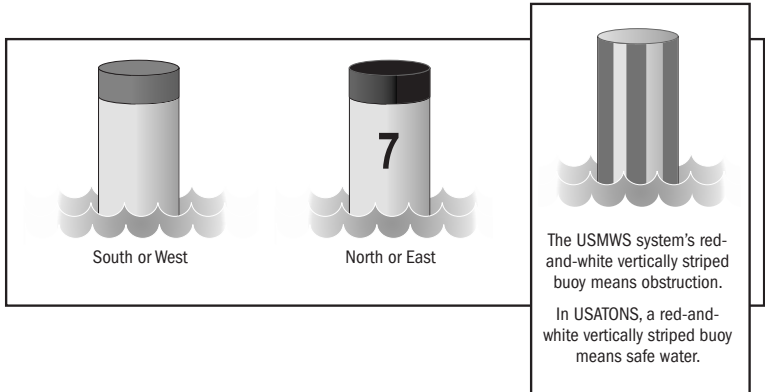

The Uniform State Waterway Marking System (USWMS) was discontinued and replaced by the U.S. Aids to Navigation System (USATONS) in 2003. Should you come across one that has not yet been replaced, a guide is provided below:

Lateral System - USWMS

Cardinal System - USWMS

Cardinal buoys serve as the USWMS version of USATONS' preferred-channel markers, as they indicate the primary route. They are named "cardinal" buoys after the cardinal points (north, south, east, and west) of the compass:

Surprisingly Comfortable

Today's life jackets are lightweight, easy to move in, and come in many sizes, styles, and shapes for every person and every sport. (There are even ones for pets!) Some examples:

Inflatable

for general recreational boating

Belt Pack Inflatable

for general recreational boating

Vest-Type Flotation Aid

for personal watercraft, waterskiing, and water sports

Child Hybrid Inflatable

for general recreational boating

Child Life Jacket

for general recreational boating

Flotation Aid

for general recreational boating

Vest Type

for general recreational boating

Inflatable Fishing Vest

for angling and hunting

Paddling Jacket

for paddlesports

Offshore Vest

for offshore boating and racing

Emergency Rescue Procedures

ACCIDENT REPORTING

Boat Operators involved in an accident must provide their name, address and vessel registration to other involved parties, provide assistance and, in case of death or disappearance report the accident to law enforcement officials.

Boat operators or owners must also make a written report of a boating accident to the Department of Boating and Waterways when:

1. A person dies
2. Personal injury requiring medical treatment beyond first aid
3. Total vessel damage exceeding \$500
4. Complete loss of the vessel
5. Disappearance of a person or person(s) from suspected injury or death.

This report must be made within 48 hours of the accident in cases involving disappearance, a death that occurs within 24 hours of the accident, or injury that requires medical treatment beyond first aid.

If you are unsure about how to report a boating accident, simply call the Coast Guard's toll-free **BOATING SAFETY HOT-LINE** at **1-800-368-5647** for information.

CAPSIZING

If the boat is too large or heavy to right by yourself, do not attempt to swim away; **STAY WITH THE BOAT** and wait to be rescued. **KEEP YOUR LIFE JACKET ON.** If the boat is small and light enough to right, swim around the boat and grab or climb on the windward rail (the side of the boat sticking up in the air) to pull the hull back in the water. If your boat has a centerboard, pull down or stand on it to see-saw the boat upright. If it's a sailboat, uncleat the sheets (lines) that holds the sails in place; if you don't, the sails can fill with air as soon as the boat is righted and tip it over again.

MAN OVERBOARD

If **YOU** fall overboard, your main concern is to stay afloat. If you are not wearing a life jacket and cannot grab a personal flotation device, try to catch air in your clothing for buoyancy. In cold water, don't expend too much energy; tread water very slowly, or if wearing a life jacket, assume the huddled H.E.L.P. (Heat Escape Lessening Posture) position to conserve body heat. Try to make your head and shoulders as visible as possible so rescuers can spot you.

If **SOMEONE ELSE** falls overboard, immediately steer the vessel toward the side he fell off. Post a lookout. Throw the victim a life ring or other personal flotation device, plus a lifeline with a bowline loop at the end to slip over his body and under his arms. If available, throw out a manoverboard pole, a buoyed, counterweighted pole with a highly visible flag on top to alert other boaters of the victim's presence and to mark the spot for the rescue boat. Stop the forward progress of the boat by taking the engine out of gear, or by luffing the sails on a non-powered sail boat. Alter your course 90 degrees and prepare to come alongside the victim for rescue.

RESCUING A VICTIM WITH YOUR BOAT

When coming alongside someone in the water to perform a rescue from your boat, if possible, pick the victim up on the windward (upwind) side of the boat (the approach suggested by the American Red Cross and the United States Yacht Racing Union). Put the engine in neutral as soon as you are next to the victim so there is no propeller turning which might cause serious injury. Put a sturdy swimmer's ladder over the side and have at least one crew member put on a life jacket and prepare to help the victim. If the victim is unconscious or unable to climb the ladder or assist in his own rescue (which is especially difficult in rough seas), he may need to be hauled onboard by several crew members, either by a lifeline or by his clothing.

An alternate rescue method suggested by the Coast Guard is to have someone onboard stand on one end of a blanket or net. The opposite end should be placed under and then wrapped over the victim and pulled by the person overboard. By doing so you can roll the victim out of the water and onto the boat.

Flags and Where to Fly Them on Boats

Flag	When Flown	Motorboat- bow & stern staves only	Motorboat- bow & stern staves and signal mast	Motorboat- two masts	Sailing Yacht- one mast	Sailing Yacht- two masts	Sailing Yacht- more than two masts
U.S./Yacht/ USPS ensign	8:00 A.M. to sundown	Aft	Aft	Aft	After peak	Aftermost peak	Aftermost peak
Club burgee	8:00 A.M. to sundown	Bow	Bow	Foremast	At the truck	At the foremost truck	At the foremost truck
Private signal	8:00 A.M. to sundown	Not flown	Masthead	Mainmast	When under way at the truck	At the aftermost truck	At the main truck
Flag officer's flag	Day & Night	Not flown	In place of private signal	In place of private signal	Instead of burgee at truck	Instead of private signal	Instead of private signal
U.S. Jack	At anchor on Sun. & holidays 8:00 A.M. to sundown	Not flown	Not flown	Bow or jack staff	Not flown	Jack staff	Jack staff
Absent Flag	Daylight-during absence of owner	Not flown	Starboard yardarm	Starboard main yardarm	Starboard spreader	Starboard main spreader	Starboard main spreader
Meal flag	Daylight-during meal hours when at anchor	Not flown	Starboard yardarm	Starboard main yardarm	Starboard spreader	Starboard main spreader	Starboard main spreader
Guest flag	Daylight-when owner is absent but guests are on board	Not flown	Starboard yardarm	Starboard main yardarm	Starboard spreader	Starboard main spreader	Starboard main spreader
Bow pennant, Fish, Fun flag, Skin Diver flag	8:00 A.M. to sundown	Bow	Port yardarm	Port forward yardarm	Port spreader	Foremost Port spreader	Foremost Port spreader

*To all who have passed
but have never left our hearts...*

A Sailor's Prayer

*The Lord is my pilot, I shall not drift.
He lighteth me across the dark waters,
He steereth me into the deep channels,
He keepeth my log.
He guideth me by the star of holiness for his name's sake.
Yea, though I sail 'mid the thunders and the tempest of life,
I shall dread no danger, for thou art near me.
Thy love and care, they shelter me.
Thou preparest the harbor before me in the homeland of eternity.
Thou annointest the waves with oil.
My ship rideth calmly.
Surely sunlight and starlight shall favor me on the voyage I take,
And I will rest in the port of my God forever.*

*May you all be blessed.
Your MBYCA Boating Family*
